

At the Marina

A Facility of the  Port of Grays Harbor

Washington's Premier Fishing Location

Fall 2017

Fall in the Marina

Thank you to those of you who chose to spend a portion of your summer here in Westport; we hope it was successful and enjoyable. While the fishing was not as vibrant as we've seen in recent years, we were pleased to hear our local businesses, restaurants, hotels, and hotspots experienced a significant increase in business and visitor traffic. At the very least, the sunshine we enjoyed here at the beach was exceptional. As we wrap up the summer busy season and the marina quiets down for fall, we take the opportunity to reflect on our operations, engage in learning opportunities, and plan for the year ahead. As always, we are all ears so feel free to share your feedback and input. Please take a moment to review pertinent information below:

Billing & Software

Be patient with us as we convert our billing system. You can expect simpler statements, e-Billings, and improved slip management from our office. As always, don't hesitate to contact our office staff with any questions regarding billing.

Trash Talk

Please help us keep the trash facilities open 24-hours a day by reporting non-marina tenant use, and only dumping **boat generated trash** in the receptacles.

*****Illegal dumping will be fined*****

Marina Dredging, What's the Scoop?

Along with the rest of Washington, our marina projects are on hold while we wait for a state capital budget to be approved. Many thanks to those of you who have advocated for the need for dredging through emails, phone calls, letters, and visits to the capital.

Keep Learning

In September, Molly and Robin had the privilege to attend the Pacific Coast Chamber of Harbormasters & Port Managers Annual Conference at the Port of Anacortes. We had the opportunity to gain information and ideas from marinas in California, Oregon, Washington, British Columbia, and Alaska. Robin accepted the Harbor Achievement Award on behalf of the Port of Grays Harbor for her service to the industry and the organization.
