For Immediate Release

Kris Koski joins the Port of Grays Harbor team as Port Engineer

ABERDEEN, WASH. – The Port of Grays Harbor is pleased to announce Kris Koski will be joining the Port's management team as the new Port Engineer.

Mr. Koski has served as City Engineer at the City of Aberdeen since 2016 where he has been involved with several important infrastructure projects including the North Shore Levee and the Aberdeen US12 Highway-Rail Separation Project. Prior to his time with the City, Mr. Koski worked as both a Design and Project Engineer for KPFF Consulting Engineers for nearly 10 years. A graduate of the University of Washington, Mr. Koski holds a BS in Civil Engineering, as well as Professional Engineering License with a Civil Endorsement.

"We are excited to welcome Kris to the Port team. His experience and leadership at the City will translate well into this position," shared Executive Director Gary Nelson. "Kris has a proven track record of project planning, development, management and most importantly completing projects. His skill set will surely be an asset to our team as we continue to improve and grow public infrastructure throughout the Port's various facilities."

Mr. Koski will be responsible for the Port's engineering activities including project planning and management, field monitoring, contract administration, and permitting for all Port facilities.

The Port Engineer reports to Director of Health, Safety and Environment Randy Lewis. Mr. Koski will begin his position with the Port on October 4, 2021.

Founded in 1911, the Port of Grays Harbor is one of Washington State's oldest port districts and Washington's only deep-water port located directly on the Pacific Ocean. The Port of Grays Harbor operates 4 deep-water marine terminals, the Westport Marina, Bowerman Airport, Grays Harbor ship assist services, numerous public waterfront access facilities, in addition to industrial and business parks throughout the County. The addition of Satsop Business Park increased the Port's properties to more than 1,000 acres of industrial properties and an additional 1,200 acres of sustainably managed forestland. Strategically located midway between Seattle and Portland and less than 1 ½ hours from open sea, the Port of Grays Harbor provides businesses a diverse portfolio of facilities. More information on the Port of Grays Harbor's facilities and operations is available at portofgraysharbor.com or satsop.com.
